EDUCATION

Completed Grade 12th in 2023
Completed Grade 10th in 2021

SKILLS

Programming: Python (Scikit-learn, Pandas, numpy), SQL

Data Visulization: Matplotlib

Modeling: Logistic regression, linear regression, decition trees

Databases: MySQL

ABOUT ME:

Coder for Past 7 years and counting …

Entered into the world of Code at an age of 12 and had wonderful experienced of errors and lessons and satisfaction. Python was the first language I learned. Learned HTML and Scratch. Started Coding basic programs in python in idle. Making Calculators, Programs with different functions, loops, etcs. Learned and Studied about Machine Learning and Learned about different Models and their Function and Their implication in Codes. Learned different Libraries like Pandas, Numpy, Matplotlib, etcs.

Learned about data science and learned about MySQL and Maked some Database applications and programs. Making Predictions applications for projects. Currently Learning Java Script and Mongo DB.

PROJECTS:

1. IRIS FLOWER CLASSIFICATION SYSTEM

2. LUDO GAME FOR MY MOTHER

3. CONTACT MANAGEMENT SYSTEMS

4. AIRLINES MANAGEMENT SYSTEMS

5. HOUSE PRICE PREDICTION SYSTEMS

6. CALCULATOR

    AND MORE AND MORE….
